

## Care in Your Community: Planning out your ideas

What's happening in your community? We asked you last week to research an issue you care about. This could have been anything from knife crime to delivering care packages to those in isolation.

This week, we want you to try and put together a 5 point plan of action for things that you could do to help tackle this issue. To help, we have put some ideas below from social action projects that our students have run previously.

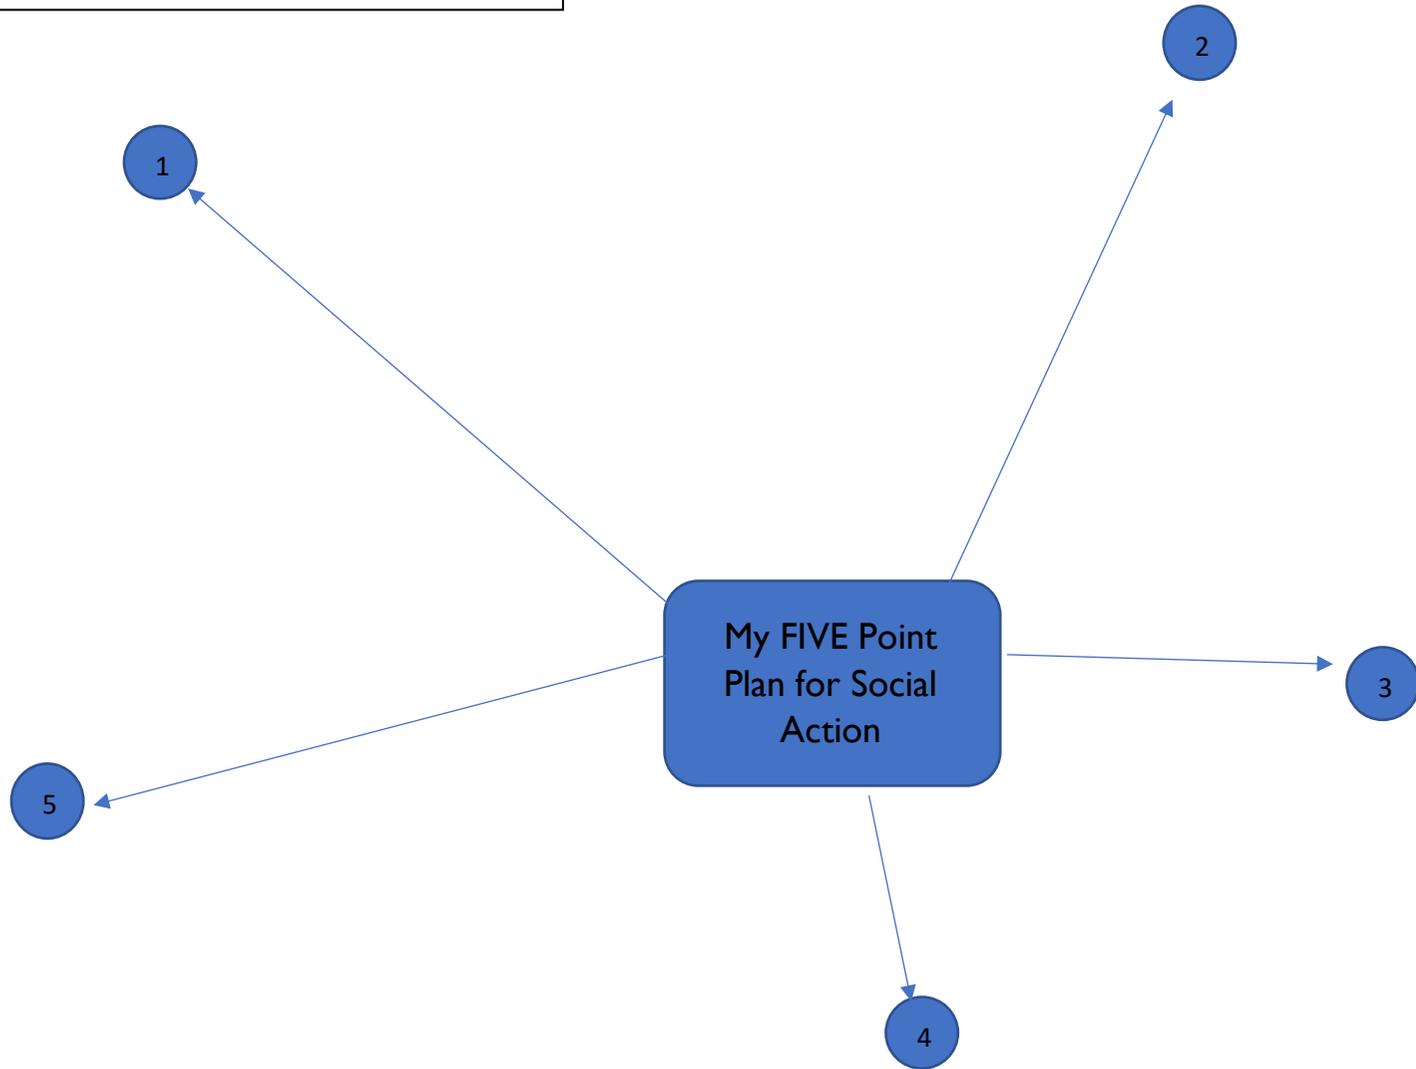

- Designed a logo and slogan that can be used for your campaign.
- Designed a survey and asked people to complete it online.
- Planned fundraising activities.
- Developed posters to raise awareness of an issue.
- Made social media campaigns to help raise awareness of an issue.
- Written letters to people (like headteachers, local MPs, business owners) to help persuade them to do something to help tackle an issue.
- Planned events such as litter picks/ plastic bottle collections to help tackle an issue.
- Written and performed a speech about your issue. (You could record this and put it online!)
- Produced a PowerPoint presentation with information about your issue that can be shared with others.
- Used websites like [www.canva.com](http://www.canva.com) to produce professional looking posters, leaflets and logos.

Remember this is only a plan – you can think about doing things outside of your house (even if you can't do those things at the moment.) Try and make sure at least two of your ideas are things that you could do from home. 😊

Once finished, please email us what you have done at [beth@pieuk.org](mailto:beth@pieuk.org).

If you feel really brave, you could upload your work to social media! If you do, please tag us on Twitter, Facebook or Instagram on @pieuksocial. We will be giving out prizes each week for the best pieces of work!

My chosen social action topic:

My chosen social action topic:

- 1.
- 2.
- 3.
- 4.
- 5.

My FIVE Point Plan for Social Action (What 5 things could you do to help tackle your chosen topic?) Provide more detail here about what you would do, when and how it would have an impact.

Think about the cost of things too. Imagine you had a £100 budget and try and think about how you would spend that when planning!
