

Cultural Capital – My Dream Trip

If our time in lockdown has given us time to do anything...it's dream! And it's those dreams that we want you to run with today!

We would like you to let your imagination run wild and we would like you to plan your dream holiday! Pretend that money and time would be no barrier, and try and present your dream way in a creative way. Make sure you include lots of pictures of where you would be going and what you would be doing!

You should think carefully about:

- Where you would go
- How you would get there
- How long you would go for
- Who would be going with you.
- Where you would stay
- What you would do during the day
- What you would do in the evenings
- What you would eat
- Who you might meet when you were there

Happy dream holiday planning!
