

Keeping Connected

There are loads of ways by which we are currently staying connected in different ways with our families and friends.

This probably includes calling, video calling, texting and using social media. You are probably using other ways to stay in touch as well though...

Maybe you are:

- Having Zoom calls with groups of friends.
- Writing letters or sending cards to people.
- Playing online games.
- Having a family quiz online.
- Taking part in online activities, challenges or fitness classes.
- Using Apps to send personalised picture postcards.
- Creating and sending other pieces of work to show people you care and are thinking of them (like producing paintings).

This week we would like you to try and connect with people in a new way! This may include one of the above ideas, or something different that we haven't thought of!

Please share with us new ways you have connected with others this week – with pictures or examples of how you have connected.

Some of these websites might help you do something new!
