"This year has been an incredible year of growth, impact and recognition for not just the team, but for the groups we work with as well. It has been amazing to watch our offer grow and diversify, and as a result, reach a higher number of people than ever! 8 years in and I am so proud to watch PIE going from strength to strength!"

ANNUAL IMPACT REPORT 2025

PIE has been a truly tremendous part of my life, helping me cope with and manage my day to day life in nearly all aspects. I also get a massive feeling of pride anytime we complete a project, like the Youth Summits.

LISTEN Group member

Beth and PIE have made a remarkable impact on our school, playing a key role in personal development programmes and character education, helping shape confident, well-rounded students. Their support has been instrumental in strengthening our careers programme, building meaningful connections with local employers and offering invaluable guidance for student career growth. Together, they have helped transform our approach to education, ensuring our learners are better prepared for both personal and professional success.

Kerris Stirling - Stockport Academy

WOC is an incredible programme, it opens your world and throws you all over and out there! It gave me the courage to do that and to just try things. It gently challenged me with supportive scaffolding. I have never done anything like it! And we've all found a real joy in watching others achieve their goals too.

Clare, WOC participant

PIE's HAF sessions give parents the opportunity to engage with their children through activities like playing games or doing arts and crafts. For some it's a new way to connect with their kids – it helps build their confidence and can make a difference in how they interact with their children at home.

Kate Noble - All Saints Primary School

PIE's attitude and dedication to creating meaningful change in the lives of young people, particularly during the crucial transition from primary to secondary school is nothing short of inspiring. Beth's professionalism is matched by her warmth, and both shine through in her unwavering commitment to empowering young people, regardless of their background or ability. She believes in their potential and helps them believe in it too, giving them the tools to thrive and achieve greatness.
