

Introduction to Podcasts

This week we would love to get you thinking about developing some further digital skills...by delving into the world of podcasts!

First, have a think about these questions:

1. What is a podcast?
2. Do you listen to podcasts already?
3. Do you know how to listen to podcasts?
4. What do you think the benefits are of podcasts?
5. What do you think the negatives of podcasts may be?

Now you have thought about what you already know, watch this video and find out how you can listen to podcasts on your device.

<https://www.youtube.com/watch?v=FfgW99Q3PmE>

Figured it out? Next task is to have a look around and find three podcasts that you would like to listen to.

Finally...can you make a poster or leaflet that helps to explain to other young people how to access and listen to podcasts? We'd love this to include your own recommendations of podcasts that you have enjoyed listening to!

Here are some suggestions of podcasts that you might like to listen to!

Happy listening! 😊

As always, make sure you share your work with us by posting online and tagging us in @pieuksocial.
